GUIDELINES FOR ALL HOOSIERS

- Hoosiers 65 and over and those with high-risk health conditions should remain at home whenever possible. This is the population that is most vulnerable to the coronavirus
- Recommend that residents wear face coverings in public settings. Residents also should continue to practice social distancing and good hygiene
- Social gatherings of 25 people may take place following the CDC social distancing guidelines. The coronavirus is often spread among groups of people who are in close contact in a confined space for an extended period of time. This limit applies to such events as wedding receptions, birthday parties, Mother's Day gatherings, and others where people are in close physical contact for extended periods of time
- Essential travel restrictions are lifted; local non-essential travel allowed
- Continue remote work whenever possible

RELIGIOUS SERVICES - MAY 8

- Religious services may convene inside places of worship. There are specific practices that should be considered for in-person services that are driven by social distancing guidelines and protections for those 65 and older and individuals with known high-risk medical conditions. Examples of services include weddings, funerals, and baptisms. See the Revised Guidance for Places of Worship for more complete details

WHAT OPENS

- Manufacturers, industrial operations, and other infrastructure that has not been in operation may open following OSHA and CDC guidelines. General guidance for these industries may be found in this document

- Shopping malls may open at 50% capacity with indoor common areas at 25% capacity
- Those who work in office settings are encouraged to continue to work remotely whenever possible but may return to offices in small waves

- Educational institutions (including public and private pre-K-12 schools, colleges, and universities) may be open for purposes of facilitating distance learning, performing critical research, or performing essential functions, provided that social distancing of 6 feet per person is maintained to the greatest extent possible.
- Educational institutions that were previously closed and are reopening for these purposes must perform enhanced environmental cleaning of commonly touched surfaces, such as workstations, countertops, railings, door handles, and doorknobs. Use the cleaning agents that are usually used in these areas and follow the directions on the label. Provide disposable wipes so commonly used surfaces can be wiped down by employees before each use.
